Draw a Monster!

Play this fun
'Consequences'
drawing game with
two or more friends
(each person needs a pen
and a piece of paper).

Draw a Monster!

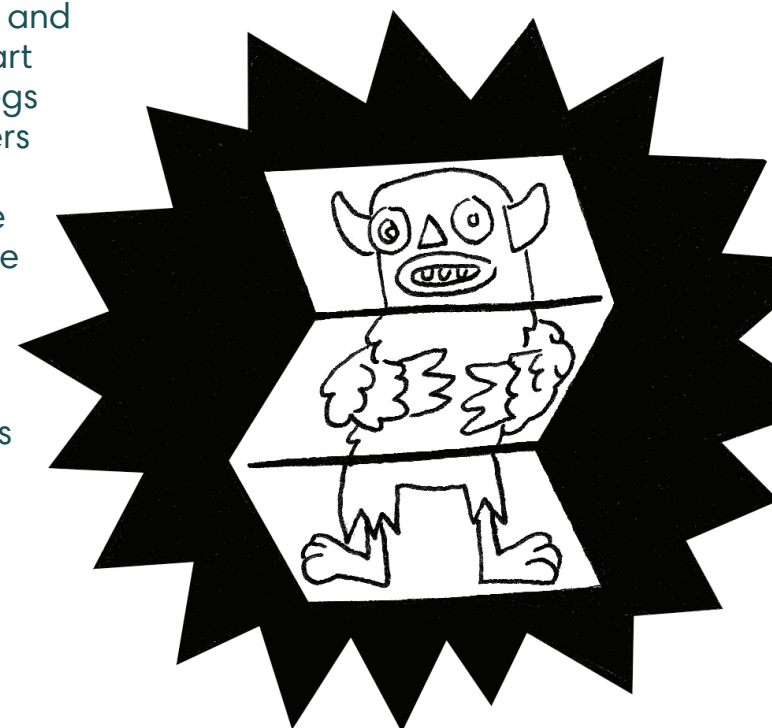

1. Fold your piece of paper into thirds just like this. Draw a head in the top third of the page. Make sure that the monster's neck goes just over the fold (so your friend knows where to draw the body).

Fold the top third of the paper back so only the bottom of the neck is showing.

2. Everybody passes their paper to somebody else. Now draw a weird and wild monster body in the centre part of the page. Stop just above the legs (draw the lines to show the monsters waist so that they just go onto the bottom third of the page). Fold the page back as shown, then pass the page to another friend.

3. Add some silly legs and feet (or a mermaid's tail, octopus tentacles or wheels!) to the bottom third of the page then pass it on.

4. Unfold the pieces of paper to reveal your incredible monster creations!
